

CT FLON AL

MULTIPURPOSE TEFLON GREASE

FOOD INDUSTRIES

DEFINITION

TEFLON[®]-based Extreme Pressure grease for use in and around foodstuffs.

ADVANTAGES

CT FLON AL withstands water, vapour and humidity extremely well. The Teflon[®] content in **CT FLON AL** significantly improves the coefficient of friction; good for use in both static and dynamic lubrication. Micronised particles enable penetration of lubricant in the smallest spaces. Lubricating power is guaranteed in high temperatures thanks to presence of Teflon, which makes dry lubrication possible in extreme conditions. Teflon[®] additive improves the water-resistant power of this grease. The composition of **CT FLON AL** permits less frequent lubrication. Adherence and anti-corrosion additives.

APPLICATIONS

Ball bearings, needles and rollers, main bearings, hinges, various materials handling and transport equipment, farm equipment, and all mechanisms requiring use of a lubricant where incidental food contact may occur.
